W. M. Beirsto Tenders Resignation

Water Extension To Parkway Addition. Gas Drillers Make Inquiries. Health Officer's Report. City Teamster Resigns.

An adjourned meeting of the city council was held in the council chamber on Tuesday evening, with all the members present except Mayor Ellis, who was out of the city. Acting Mayor MacEachern in the chair. Engineer Crane gave his report on the cost of proposed extension of the water and sewer mains to supply residents in the Parkway addition. The total cost would be approximately \$325.00, which would realize a little over four per cent. It was suggested that a temporary two inch water pipe be laid in the trench with the sewer pipe, and if this meets with the approval of the petitioners, their request will be complied with, as the city could then supply the water at a small profit. The matter was referred back to the water committee.

E. Roberts presented a statement showing the present financial condition of the waterworks department. This was filed for future reference. Henry Getchell tendered his resignation as city teamster, which was accepted.

R. J. Thompson of the Wetaskiwin and Spirit Co. wrote to the adjutant of his taxes, and thanked the council for compromising in the matter. Letter was filed.

Dr. T. B. Stevenson presented his medical health officer's report for the month of February, showing the city to be in a "good health" condition. The only cases reported during the month were one of chickenpox and one of scarlet fever. The report was received and filed.

The Northwest Drilling Co., Calgary and Geo. H. Turner, Vancouver, were asking for information in connection with the drilling of two additional gas wells. In the discussion which ensued as to the location of the wells, it was suggested one of the wells be drilled on the city's lot on Pearce street, opposite Mattson's blacksmith shop, and the other at the corner of Rosecroft and Leonard streets, but the exact location was left in abeyance, as some of the members wished to procure expert opinion as to the best location. Mr. Roberts was instructed to give the information asked for in the above communication.

A communication from the Centennial Fund committee requesting the city to contribute to the erection of a \$100,000 monument which will be erected on Mount Royal, Montreal, was filed.

W. M. Beirsto tendered his resignation as assistant city clerk, which was accepted, and the matter of procuring a successor was referred to the finance committee.

Mr. Gossie petitioned for water and sewer connection to her residence on Topp street, as the petition was in order, it was moved by Gossie that the work be connected as soon as weather permits.

C. Schmidt addressed the council regarding his November and December light accounts, which he contended were too high. As the figures were only slightly higher than the corresponding months of 1912, no action was taken.

Ald. MacEachern presented reports for the power house for the months of January and February, showing the cost of operation, and the hours the different machines were in operation. The report was filed.

A renewal of the lease with the Hercules Rotary Engine Co. was read and the mayor and secretary-treasurer were authorized to sign same on behalf of the city.

Gross-Gothard—That an advertisement be inserted in the papers calling for applications for the position of city teamster, same to be received up to March 22nd, dates to commence April 1st; salary \$60 a month. Carried.

Meeting adjourned.

CAMROSE

(From the Canadian)

The Camrose public school has been
closed for two weeks on account of the
prevalence of scarlet fever.
Mr. and Mrs. L. E. Martin spent
the week end in Calgary. Mr. Martin
was fortunate in procuring the high-
grade grocery stock of the Mission
Bridge Grocery while there and is ship-
ping the goods to Camrose.

As a means of increasing the revenue
for the waterworks department, the
town council decided at the meeting on
Tuesday evening to instruct the assess-
or to assess all property in the town
abutting on the water mains. The
rate will be 1 cent per foot which
means that the owner of a fifty foot
lot on a water main will be taxed \$1
per year in addition to any other tax
on which the property may be bur-
dened.

There was much joy in High school
circles this week over the brilliant suc-
cess which attended the Camrose debat-
es in their contest with Lebrun at
Edmonton on Friday evening. This
was the final debate in the Alberta
High School Debating League and the
victory for Camrose means that the
town High school holds the champion-
ship for the province. The citizens of
Camrose were not slow to recognize
the importance of this, and as a
sign of the public school system here has
been showered with congratulations
from every quarter.

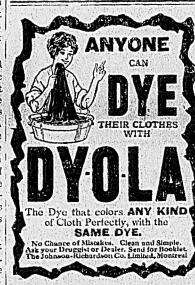

The influence of biting, spring is felt
among Camrosians' clothes these days.
They feel the call to the outdoor life
and summer recreations and have de-
cided that the time is opportune to
introduce shorter and more regular
hours into the business life of Camro-
se. Accordingly they have interview
the local merchants with the result
that there will be a uniform opening

Borden's Navy Policy Should Not Be Accepted

This Was the Decision of the Judges in Their Summary of the Debate At the Educational Club on Monday Evening.

The Educational Club held another successful session on Monday evening when the subject, "Resolved, that the Navy Policy of the Borden Government should be adopted," was debated. The affirmative was taken by Stanley Poole, Miss Grace Ramsey and Harry James, while the negative was upheld by Merrill Lyle, Miss Matilda Toft and Robert Rosseter. Mr. J. P. Fowler was chairman.

Mr. Poole, leader of the affirmative, started the debate by asserting that Mr. Borden's policy was to give \$35,000,000 to be used in strengthening the British Navy, and advanced the following arguments:

"That the burden for defence of the whole Empire is borne by Great Britain alone.

"That Australia and New Zealand fear that share, therefore Canada ought to be ready to help her. That the best means of doing her part is by contribution. This method meets with the approval of the British Government.

"That it would take from 25 to 50 years to build and equip a shipbuilding plant, and that would not help Great Britain in her present emergency.

"That naval yards would necessitate constant ship building to keep a large number of men in employment, and also require the keeping up of mills and factories."

"That under Mr. Borden's plan the ships could be built at once, and they would be subject to recall by the Canadian Government after reasonable time.

"Miss Ramsey maintained that our dignity, if it is to be retained, demands that we do our share in providing naval defence.

"That it would take eight years to get a ship built in, and we construct it in yards that we would first have to build.

"That the ships built by that time might be obsolete.

"That our people are too fond of freedom to be able to pay for equipment under naval discipline.

"Mr. James claimed that Mr. Borden's policy gave our government time to select the best program for naval defence.

"He showed the marked change in the relative size of the British and the German fleets, the British being much smaller in proportion than formerly. That the German program was arranged for up to 1920 and therefore in less Canada came to the rescue of Britain, her comparative naval strength would be yet further encroached on by Germany.

"He held that men on land are more profitable to a country than on sea, and therefore it is to our advantage to have our ships manned and built in England. This would be more likely to happen under Borden's policy than under Laurier's."

"Mr. Lyle argued for the negative; that Mr. Churchill's speech showed there was no emergency. He quoted, in part, where Churchill said the Canadian gift of three ships would be an addition.

"He said the Borden program would leave our western coast defenceless, for at least twenty-three days, and our eastern coast for nine days, since the ships furnished by Canada were to be stationed off Gibraltar.

"He said paying thirty-five millions was something that smack of tribute to a way that building and controlling our own ships would not.

"That Britain wants the hearts and brains and brawn of her subjects.

"That Mr. Borden's is a temporary policy while Laurier's is a permanent one.

"That Australia's withdrawal shows the contribution policy is not successful.

"Miss Toft said if we cannot build some ships in less than fifty years we must be degenerating, as a people.

"That could be a gift to Britain does not show the greatest respect either to Britain or ourselves.

"That our part of the British debt would be so small that it would be swallowed up in the great debt of Britain.

"We can manage our navy in our own way best. We are a race and it is our duty to do our own work. Our country is rich in the minerals needed for ship building. With yards established we could build for other nations for we have nickel, steel and coal.

"This would increase our trade, build up industry, employ men and add to immigration.

"Mr. Rosseter held that Laurier's navy building program was a progressive one in harmony with our development and growth and spirit of self government, but Mr. Borden's was not.

"That Laurier policy, unlike Borden's provides for the gradual construction of ship building yards, and for some ships to be built abroad immediately.

"That we can man a navy as well as milita, for we sent soldiers to the Boer war.

"That by strengthening our defence we strengthen the empire.

"That unlike Mr. Borden's Laurier's policy is definite, and not a make-shift Mr. Rosseter then referred to the peace conference and peace era, and said there was no emergency.

"In reply, Mr. Poole said that England had been working up her navy, not for fifty years, only, but since the time of Henry VIII.

"That a wise man changes his policy when he sees a better one. This was in answer to Mr. Rosseter's statement that Mr. Borden had withdrawn from the policy of Laurier to which he had given assent because he wanted the glory of getting one of his own.

"He claimed Britain's prestige was in danger. She needs a commanding lead. That in 1920 her strength would be 51 to Germany's 35. This does not leave her a sixty per cent surplus.

"The judges, Rev. W. L. Bradley, Mr. L. O. McNeil and Mr. Northrup, found that the weight of argument was about equal on each side, but that the negative side excelled in their presentation of their arguments. Hence they gave their decision in favor of the negative side.

Woman Suffrage

An interesting debate took place
at Millet last evening ago on the
subject: "Resolved, that equal suffrage
should be granted to women." The
judges decided that the negative side
had the better of the argument. The
allowing are some of the points made
by E. H. Keith who was leader of the
winning side."The fact that it is a live question
and that there are in every commu-
nity a few women who are vigorously
campaigning for the franchise is a
sufficient reason for going straight to
the heart of the issue without any
mincing of matters. I therefore dis-
re to call your attention to the fact
that man has been specially designat-
ed as the governing agent in human
society by no less an authority than
God himself. The mother of the race
in sorrow received the sentence from
the dispenser of Divine Justice: "Thou
shalt be subject to him." In the New
Testament Paul charged "apostle re-
vires obey your husband as you obey
the command in the words: "These
are plain and unequivocal
statements of the Divine will. They
permit of no doubt meaning it is not
fitting that men should be ruled by
women, but neither is it fitting that
either men or women should disobey
the express command of their Creator.""It seems to me that this alone
should convince anyone who believes
in the Bible that no good, but only
evil, can come of giving women a
share in the government of nations.""There may be, however, some who
deny the authority of the Bible. For
them the benefit of a good govern-
ment to show on other grounds that women
suffrage is unwise. Arguments in
support of this contention are not lack-
ing. But let us turn to the other side.""The fact that the burden of proof
rests with our opponents. Those who
advocate woman suffrage have the bur-
den of proof to show that a good gov-
ernment is a necessary condition of
civilization and that the franchise is
a necessary condition of a good gov-
ernment.""The fact that the burden of proof

the word, then I wish to put myself
on record as being willing to hand it
over to them altogether and further-
more I solemnly promise not to go
and parade up and down the streets
carrying a banner and walling about
the injustice of not having a vote, not
such pastimes as burning other peo-
ple's homes as a means of getting back
the franchise."Thus I have endeavored to show
that Woman Suffrage is contrary to
the plainly expressed will of the Cre-
ator. That the burden of proof rests
with our opponents. That it fails
to take into consideration the divi-
sion of duties which nature has im-
posed on men and women. And that
it will tend to rob women of those
finer spiritual qualities which mean
so much to the human race. There is
but one final question to be answered
and that is: In the need for woman
suffrage, is the need for woman
great enough to justify an in risk-
ing it, and the answer to that ques-
tion is most emphatically no. Facts
and statistics gleamed in these coun-
tries and states where women have
been given a vote show conclusively
that the legislature has failed after
Woman Suffrage came in force in
just as often as it is better. That in
the great majority of cases there is
no appreciable change either for bet-
ter or worse in the world. Woman
Suffrage has practically no effect on
legislation."Where there is the need for Woman
Suffrage. A few practical women
have already shown by their irrespon-
sible conduct that it would be unwise
to give them a vote in the govern-
ment of the nation have demonstrated it.
The great majority of women realizing
for the reasons I have already stated,
that no good and perhaps much harm
would come of it are either totally in-
concerned in the matter or actively
opposed to a change brought with-
out their consent. Hence to themselves
and the human race."These men who are so ready to
support such a movement. What can
we say except that they are aiming
to take the heart and life of our
civilization by destroying the condi-
tions which have created the abounding
spiritual life of woman.""If now we turn very briefly to
the principal arguments advanced by
Woman Suffrage advocates. They fall
logically under three separate heads.
The first and most advanced legis-
lation would be improved. This has
not been shown so far in the history
of the movement. Whenever a
state or country has given woman suf-
frage passes any advanced legislation
the advocates of the movement seize
upon it and hold it up as a triumph
fact. Let us turn to the second head
of argument. The advanced legis-
lation is being passed in states and
countries having daily male suffrage;
2nd, that even in those states or
countries where woman suffrage is
totally ignored, the advocates of the
movement have had the vote is very
small compared with the male vote, and
3rd, that the better class of women re-
fuses to vote. So that the number of
votes, in reality, increased by the least
intelligent and least morally respon-
sible of the women in the constituencies.""Therefore if we break aside the
sentiment that overclouds this whole
question and look at it in the light
of cold reason and facts we find the
real truth to be that such advanced
legislation was passed rather in spite
than on the basis of a woman's
need. When Woman Suffrage is held to
be a great uplifting force in the life
of woman, I have shown that it would
tend to have the opposite effect.""Practically Woman Suffrage is
asked to be a measure of justice to woman,
and we are to have a realignment of
the savings of the past in regard to
taxation, representation, freedom of
speech, right of government, etc. Right
here we see the real danger of the
mental twaddle that has been
done up for so long a time by politicians,
who are trying to bolster up their
jobs, and to prove that a good gov-
ernment is nothing more or less than
a business organization formed for
the purpose of defining the rights of
citizens so that they can get along
peaceably and equitably, and for the
purpose of 'snapping' their thumbs
more money and making it more easy.
That is government, stripped of its
glamour, and if women could run such
an organization better than men, and

A COLD Developed Into BRONCHITIS.

However slight a cold you have,
you should never neglect it. In all
possibility, if you do not treat it in time
it will develop into bronchitis, pneumonia,
or some other serious trouble or lung
trouble.

Dr. Wood's Norway Pine Syrup is
particularly adapted for colds, coughs,
bronchitis, pneumonia, asthma, whoop-
ing cough and all troubles of the throat
and lungs. Three points in favour of
Dr. Wood's Norway Pine Syrup are:
1. It is pleasant to take. 2. It is vigorat-
ing as well as healing, and soothes the
throat and lungs. 3. It is pleasant, harmless
and of sure results.

Mrs. Albert Vail, Brockville, Ont.,
writes: "Just a line to let you know
how Dr. Wood's Norway Pine Syrup
helped me. I was very ill with a cold
and I tried everything we could think
of and had two doctors attending her,
but it was no use. One day I read
in your magazine about Dr. Wood's
Norway Pine Syrup, so I used it, and
before she had used one bottle of it,
the dry hacking cough had nearly all
gone. Then I used another bottle and
I am now well and happy as ever."

See that you get "Dr. Wood's" when
you ask for it, as there are numerous
imitations on the market. The genuine
is manufactured by The T. Millburn
Co., Limited, Toronto, Ont.

THE "OUT-PATIENTS."

The Montreal General Hospital has
15,000 of them Every Year.

The out-patient department has been a leading feature of the Montreal General Hospital for well-nigh one hundred years, or more explicitly from its foundation in 1821. The hospital has just added greatly to its facilities for attending to this branch of its work by the establishment on the ground floor of the commodious and modern wing to the east of, and adjoining the old building. Here come every day hundreds of people, poor, unfortunate, afflicted, needy, for the care of the healing hands of the surgeon and physician and none are turned coldly away, even if they have not a cent in their pockets. Here in the course of a year sixty-five to seventy thousand visits are paid by fifteen thousand patients, each coming on an average, four or five times. The only charges are five cents for registration, and five cents for the bottle which contains their medicine handed out at the dispensary. Here is stationed a nurse to follow up certain cases in the homes and to arrange for monetary relief when destitution renders relief necessary and to check cases where charity is likely to be undergoing abuse. All this work is maintained from the hospital fund which is maintained by private subscriptions.

Passing through the temporary entrance in the north end of the out-patient department the patient goes to a suite of offices where a nurse sees and sends him to the clinic. The names of all who present themselves for treatment are inscribed on cards and properly indexed while another set of indexed cards contains observations on their calls and case. Here they receive instructions as to go and pass to the waiting enclosure for their turn, if they are new cases. The old cases sit upon benches till a man calls out their names. The waiting room will contain about three hundred persons.

Supposing his case is a surgical one, and the great majority of the cases are, the patient proceeds to the surgeon's receiving room in the extreme eastern wing. Here are found the chief of clinic and his assistants. Men are sent to rooms on his right and the women to rooms on his left for private examination. Here are also the dressing rooms for male and female patients, one across the hall from the other and the female one being on the south side. Then there is a nurse's office and supply room. Next is the general operating room used also for troubles of the nose, throat, eye and ear. A complete sterilizing outfit is in another room. Then are the rooms for recovery from anaesthesia. On the north side is a special sanitary tiled room for supporting cases, then the series of rooms for skin and venereal diseases. These open into a large demonstration theatre for skin diseases, next a room for nose and throat troubles with a dark room for the examination of special cases. The nose and throat room is beautifully fitted up from a surgical point of view. Noticeably, especially, are many steel enamelled now and throat chairs.

Between the east and west wings in the centre is where the patient gets his cards and a doctor's prescription, has it filled at the dispensary, pays five cents for the bottle, and passed out into St. Dominique street. The west wing is for medical cases. The patient goes down a long corridor and enters the main medical clinic. There is a central receiving room, three rooms on one side and three on the other for the examination of cases, a theatre for teaching medicine. A series of four rooms and bathroom are provided for diseases of women. Next is a clinic for the nerve specialist, and you pass through a fire wall into the old building. You then find two big rooms for eye and ear cases, a dark room and a group of five rooms devoted to ophthalmology.

Biggest of Telescopes.

Within two years Canada will have a telescope larger than that possessed by any observatory in the world. The Government has decided to accede to the request of the Chief Astronomer of the Commission, backed up by recommendation of the Royal Astronomical Society of Canada, the Royal Society, the Astronomical Society of Great Britain, the Astronomical Society of the United States and other influential scientific and scientific bodies, with the result that contracts have been awarded for a telescope and equipment to cost over \$90,000.

The silvered mirror will be six feet in diameter, the glass for which will have to be obtained in France. Being of such a large mass, it will take eight months to anneal or cool off after being moulded.

Another Fish Story.

There is an Indian horse in the Mus River Country that eats fish and has a preference for coddlefish, says a correspondent in Smithers, B.C. Sergeant Pat Phillipson, who is known here as a man who always speaks the truth, vouches for the story. The horse, it is said, will leave a pile of oats any time to catch a coddlefish. Moreover, he keeps fat and in fine fettle on the diet.

It is a great sight, says the truthful sergeant, to see this horse cantering along the beach in the coddlefish season. He trots briskly, his head held high, in the air, his neck proudly arched, his coat glistening and his eyes flashing as he is fastened on search of the modest and succulent coddlefish.

Germany Wants Wheat.

Germany wants Canadian wheat which mixes admirably with theirs, according to a report from the Canadian trade commissioner at Hamburg. In 1909 no Canadian grain went to Germany. In 1910 the exports were 16,572 tons while in 1912 they increased to 269,025 tons. In six months this year 150,000 metric tons have been sent over.

YOU CAN'T EARN MONEY WHEN YOU'RE LAID UP

There are a few people in town who cannot afford to be sick. Perhaps none of you can, but certainly some of you can't, for as soon as you are laid up, your power stops and you are left to take up. The sensible thing for you to do, as soon as you feel run down and worn out, is to take a course in taking a something up as quickly as you can to build up strength and health. Make your diet easy on the stomach and provide against any possible headache.

We don't believe there is any other medicine made that will do as much towards saving your health and thus helping you save your money as Reckitt's Olive Oil Emulsion. It is a medicine that gets right at the trouble and relieves it by giving the nerves, enriching the blood, and giving new strength and health to the whole body. It doesn't do this by means of alcohol or heat-forming drugs, because it contains none. Its strength and health-giving power is due to pure Olive Oil and the Phosphorus, long employed by successful physicians, the one for its food value, the other for its tonic value. Here, for the first time, they are combined, and the result is a real nerve, blood and body-building medicine—a real strengthener which we are proud to tell you about. You won't need to hesitate in using it, because it doesn't do it in any way that will interfere with your work. It will not make you feel any way, it will cost you nothing. If it doesn't make you strong and well again, come back and get your money. It will be given to you without cost or question. Sold only at the more than 7,000 Reckitt Stores, and in this town only at No. 110.

cuts to a large amount during the afternoon, while Mrs. French's kitchen contained articles too numerous to mention. Miss Albright had charge of the magazine department, and took orders for some of the leading periodicals of the day. One of the novel features worthy of mention was a large orange, tree heavily laden with full grown fruit. Mrs. Crosby superintended the serving of a delicious supper from 5:30 to 8, which was largely patronized. The ladies are very grateful to the musicians who so kindly entertained the guests with piano and violin selections, while refreshments were being served. The receipts reached the splendid sum of \$215 net.

REMINISCENCES

Let your memories carry you back to the time when you would walk miles, and stand an hour waiting for the door to open, to see a wanted show. How you would enjoy it! The good old days would be revived, and you would be humming and waiting for the weeks, and if you only came across one who had not been there, you would enjoy cracking the jokes you had heard on them to have passed and gone, but they are not for they are going to be revived and by your own talent. The boys of the town are putting on a genuine Musical Entertainment in the Bijou Theatre on Friday March 27th. Do you get the date?—the 27th of March. There will be a few reserved seats at 50c and the rest of the building will be 25c. A good laugh saves doctor's bills and that is one thing you are sure to get at the Bijou on the 27th. This is one of the series of three concerts under the auspices of the Presbyterian, English and Methodist Churches, between which the profits will be equally divided.

Now people you ought all to go to see your own boys Musical Show. To hear Bones, Tambo, Sam & Pete. Twenty five cents obtain a seat.

IS MARRIAGE A FAILURE

In these days of money getting and money losing, of hot and cold water and attendant evils, the subject of domestic unhappiness and the reasons therefor, have been given which prizes instead of ordinary ones, which ends its listeners away feeling that this gray old world is not such a bad place as it is sometimes painted such wonderful success in all parts of the country. NOT DUPLICATED IN YOUR CITY

With the coming of the Paul J. Rainey African Hunt Pictures to the Angus Theatre on Wednesday March 18th theatre-goers of this city will have an opportunity of seeing what is considered by the American Geographical Society and the American National Natural History as the most marvellous motion pictures ever taken. Probably more than in any pictures of recent years do these films, made by Mr. Rainey in the jungles of Africa, have a genuine educational value. They should, at any rate, prove more attractive to the average theatre-goer and reciter after two weeks, than any book or play, could possibly hope to accomplish. Hunting big game with a camera has been one of Mr. Rainey's hobbies for years, and when he began to Africa with a moving-picture operator, he could hardly have expected to achieve the results that will be shown at the Angus Theatre, when these pictures are presented for the first time on Wednesday March 18th. Special Children's Matinee and night.

CARD OF THANKS

Mr. and Mrs. Alex. Waterson wish through the columns of The Times to sincerely thank their friends and neighbors for the kindness and sympathy shown them in their hour of bereavement.

WE HAVE FAITH IN THIS STOMACH REMEDY

A woman customer said to us the other day, "Say you ought to tell everyone in town about Reckitt's Dyspepsia Tablets. I would myself if I could." That set us to thinking. So many people have used them and have so enthusiastically commended their prices both to us and their friends, that we had an idea you all knew about them. But, in the chance that some of you who suffer from indigestion, heartburn, dyspepsia, or some other stomach complaint, don't know about them—we are writing this. They contain the greatest digestive aids known to medical science. They soothe and comfort the stomach, relieve the irritation of gastric juice, help to quickly digest the food and convert it into rich, red blood, and improve in action of the bowels. We believe them to be the best remedy made for indigestion and dyspepsia. We certainly wouldn't offer them to you entirely at our risk unless we felt sure they would do you a lot of good. If Reckitt's Dyspepsia Tablets do not relieve your indigestion, please the heartburn, and make it possible for you to eat what you like whenever you like, come back and get your money.

Sold only at the more than 7,000 Reckitt Stores, and in this town only at our store. Three sizes, 25c, 50c, and \$1.00.

Judicial Sale OF FARM PROPERTY

Pursuant to the Judgment and Final Order of Sale, there is to be offered for sale with the approbation of the Master in Chambers, by George L. Owen, Auctioneer, at his auction rooms in the City of Wetaskiwin, at 2 P.M. on Thursday, the 28th day of March A.D. 1914:

The South-West Quarter of Section Fourteen (14), Township Forty-Six (46), Range Twenty-five (25), West of the Fourth Meridian in the Province of Alberta, containing 160 acres more or less.

The Plaintiff is informed of the following particulars: About 125 acres consist of upland, the balance being low-lying, and of 80 acres which are open, 60 have been cultivated. About 75 acres are under brush and timber (poplar and willow). A fine well on the land yields a fair supply of water. The whole area of the Quarter is fenced, with wire on three sides, with poles on fourth side and the pasture and is a fenced.

The said lands are situated about 15 miles from City of Wetaskiwin, 6 miles from Millet where there is a Railway Station, Post Office, School and Creamery, 6 miles from a Church while there is a school on an adjoining Quarter Section.

The buildings on the said lands consist of two log houses, respective dimensions 18 x 27 feet and 15 x 30 feet, and two log stables, respective dimensions 18 x 27 feet and 15 x 30 feet, and two log stables, respective dimensions 24 x 15 feet and 36 x 24 feet.

The property will be offered for sale in one lot, subject to a reserve bid, and subject to the reservations and conditions contained in the grant from the Crown, or in the statute or Hibernia of Title. The purchaser is to pay 10 per cent of his bid to the vendor or its Solicitor at the time of the sale. The balance of the purchase money to be paid into Court as follows:

Within sixty (60) days without interest; and upon payment of the said balance the purchaser shall be entitled to a transfer or vesting order, and to be let into possession.

In all other respects the terms and conditions of sale will be the same as in the conditions of the Supreme Court of Alberta, as approved by the Master.

Further particulars can be had from Messrs McDonald & Tighe, Imperial Bank Building, Edmonton, Solicitors for the Vendor.

Dated at Edmonton, the 28th day of February A.D. 1914.

Had Salt Rheum. Could Scarcely Do Work.

Skin diseases are invariably due to bad or impoverished blood, and while we cannot manufacture in this country, we are nevertheless very desirous to the worst person.

Among the most prevalent are: Salt Rheum, Eczema, Tetter, Itch, Boils, Pimples, and Itching Skin Eruptions.

Burck's Blood Bitters drives out all the bad matter in the blood, and makes it pure and rich.

Mrs. Elwood Nesbitt, Anley, Ont., writes: "I had Salt Rheum, and I had it so badly that I could scarcely do any work. I took two treatments of doctor's medicine, but they did me no good. A friend told me that Burck's Blood Bitters had cured her, so I got a bottle, and before I had it taken my hand was better."

Burck's Blood Bitters is manufactured only by The T. Williams Co., Limited, Toronto, Ont.

Easier, Quicker and Better Dusting and Cleaning

EASIER, because you do not have to get down on your hands and knees to dust, clean and polish a hardwood floor, or the stairs, or move heavy furniture to dust under it. Easier, because you do not have to stand on a chair to dust the molding or the tops of

doors, or the tops of high furniture. Quicker, because you only have to go over the surface once to dust, clean and polish. One operation does it all. Better, because the O-Cedar Polish gives a high, hard, durable finish, not a gummy, lousy bluish cast.

O-Cedar Mop Polish

Makes it Easy to Clean Those Hard-to-get-at Places

and does away with the hardest part of housekeeping.

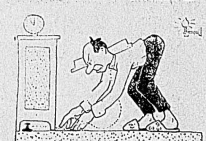

The mop is heavily padded to protect the furniture, and the handle is 54 inches long. It can be easily cleaned by washing and renewed by pouring a few drops of O-Cedar Polish on the mop.

We Make It Prove Its Worth to You Before You Buy It

The price of the O-Cedar Mop is \$1.50, but we will instantly return the price if, after two days' trial you do not find the mop all we claim for it and satisfactory in every respect.

IF YOU'RE LOOKING FOR

well finished, high class Photographs, your search will end when you reach this Studio. We make nothing but first-class work and honestly the price is no higher than you would have to pay for inferior work. THE ONLY THING HIGH IN MY STUDIO IS THE QUALITY.
